

QUICK GUIDE

Model NO. : CM-SWITCHER

Product Overview

The CM-Switcher accepts (3) video input with (1) video output to allow multiple cameras to be connected to any monitor that only accepts (1) input.

Triggers:

Video 1 = Pass Through

Video 2 = White with red stripe

Video 3 = White with blue stripe

Installation:

1. Connect the +12V and GND of the CM-SWITCHER
2. Connect the Videos (Video 1, Video 2 and Video 3) to the CM-SWITCHER.
3. Connect the Video output to the monitor. Blue wire is the monitor trigger and outputs +12V when Video 2 and Video 3 are active.

Primary inputs:

Video 1 is always active but can be overwritten by the other video inputs (Video 2 and Video 3).

Video 2 is the primary video input and can overwrite Video 1 and Video 3.
