MiNy360X Main Unit

Getting Started

1. Installation Method

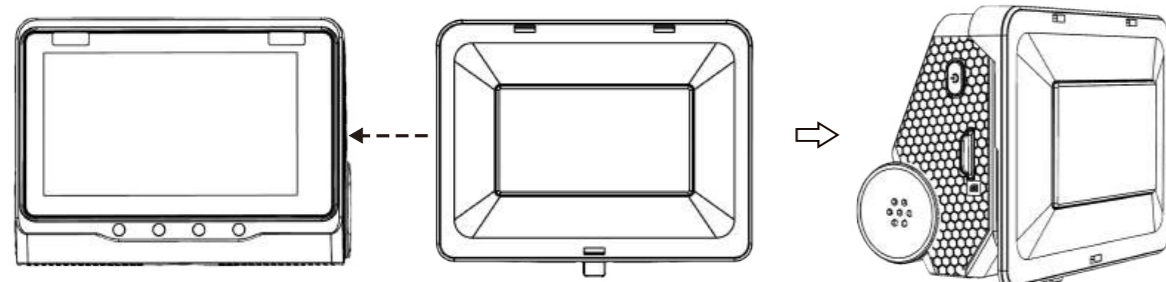

Windshield Installation Method

Install the suitable windshield bracket (27° or 21°) and attach the MiNy360X to the appropriate position on the windshield.

Dashboard Installation Method

Install the dashboard bracket and attach the MiNy360X in a suitable position on the dashboard.

Windshield Installation

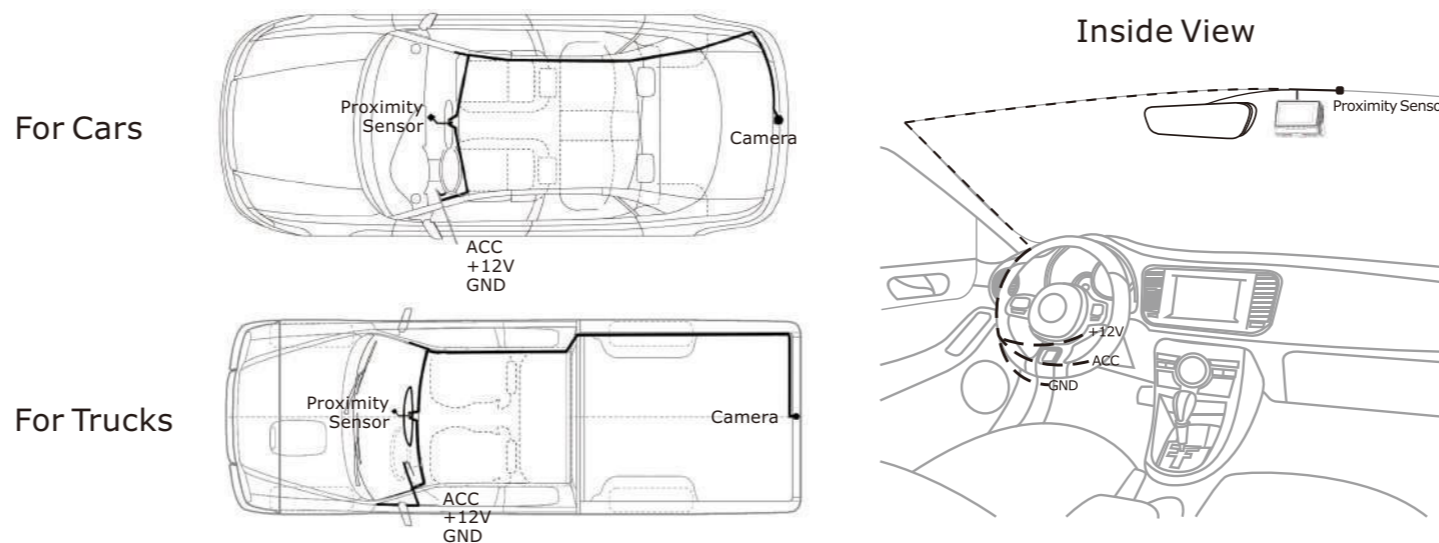

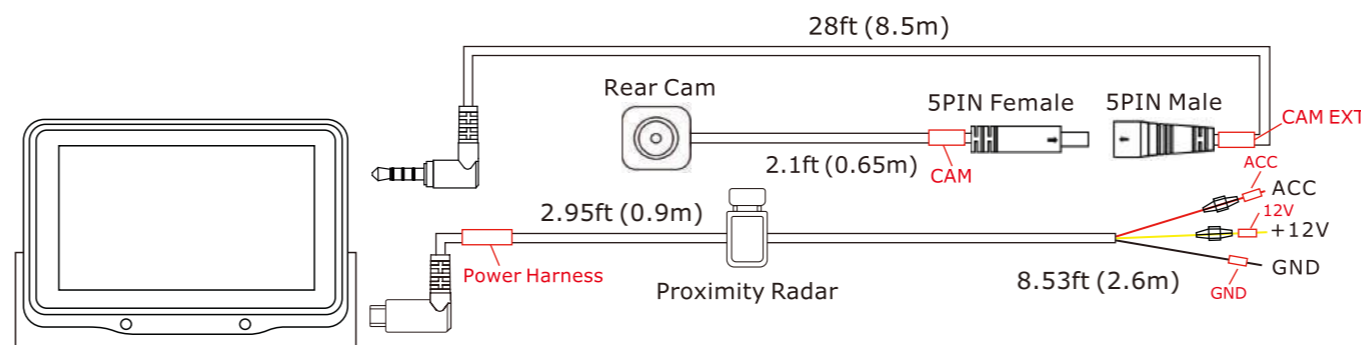

Dashboard Installation

Note:

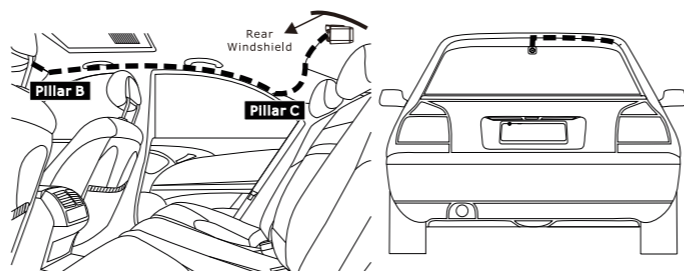

Please select an installation location that does not obstruct the driver's view of the road. Make sure the device is positioned in a way that does not interfere with normal driving visibility or block any critical sightlines, ensuring safe and comfortable operation at all times.

Prise en main

1. Méthode d'installation

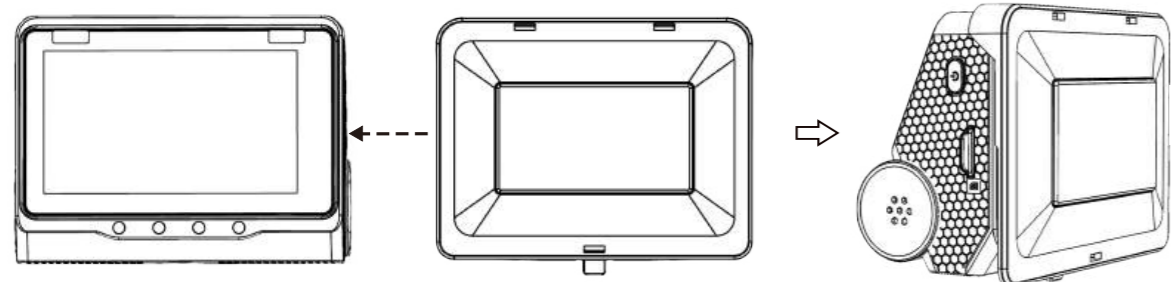

Méthode d'installation sur le pare-brise

Installez le support de pare-brise approprié (27° ou 21°), puis fixez le MiNy360X à l'emplacement adéquat sur le pare-brise.

Méthode d'installation sur le tableau de bord

Installez le support de tableau de bord, puis fixez le MiNy360X à un emplacement approprié sur le tableau de bord.

Installation sur le pare-brise

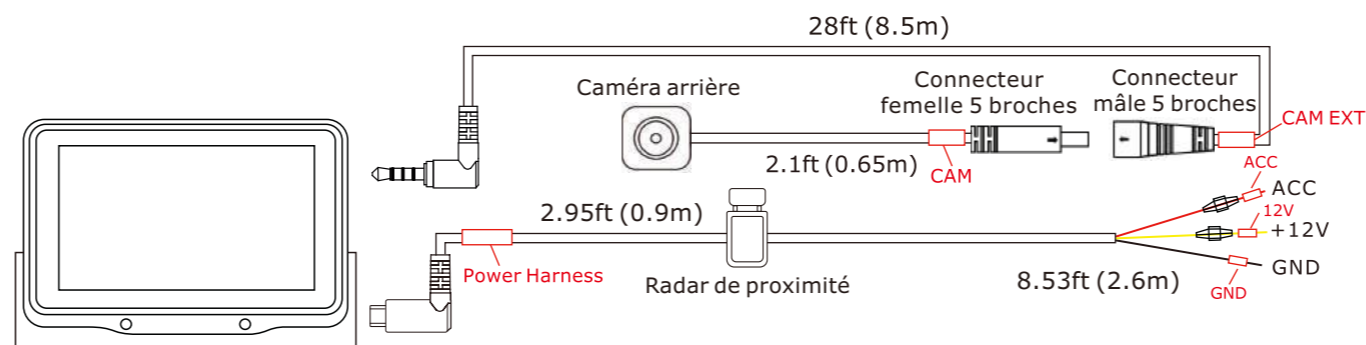

Installation sur le tableau de bord

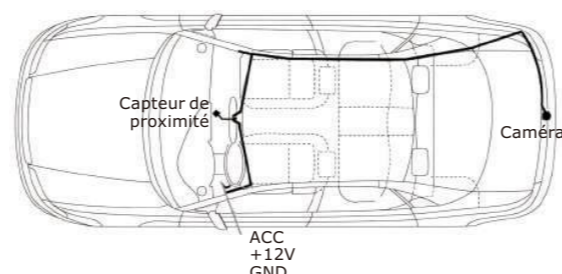

Note:

Veillez choisir un emplacement d'installation qui n'obstrue pas la vue de la route par le conducteur. Assurez-vous que l'appareil est positionné de manière à ne pas gêner la visibilité normale de conduite ni bloquer les lignes de vue essentielles, afin de garantir une utilisation sûre et confortable à tout moment.
